MANAGEMENT COMMENTS

Market review

For Q4 2022, average selling prices of Segezha Group's products amounted to:

- Sack paper EUR 765/t (down 2% yoy)
- Sawn timber EUR 153/cu m (down 34% yoy)
- Birch plywood EUR 494/cu m (down 41% yoy)
- Glulam EUR 368/cu m (down 31% yoy)

Q4 2022 saw the following trends in the Group's key products:

- Demand in the global sack paper market declined due to a reduction in construction activity on the key markets because of low season. European manufacturers of sack paper increased sales in the domestic market (up 4%)² due to withdrawal of Russian importers, exports outside the EU went down by 1%. Russian manufacturers of sack paper vigorously redirected volumes to Turkey, Asia, MENA as exports to Europe were prohibited. logistical difficulties remained in export deliveries.
- Russian birch plywood output demonstrated minor growth (up 5% qoq) in 4Q 2022³, yet, as compared with the same period of last year, Russian manufacturers continued operating at much lower utilisation rates, down 45% yoy (industry average). Plywood output in 2022 went down by 24% yoy to 3.2 mln cu m. Plywood exports from the Russian Federation in 4Q 2022 were characterised by a positive trend (+6% qoq) due to an optimisation of logistics routes and rates, partial substitution of the share of European competitors and better awareness of the Russian product in the new target markets. Greater imports of the Russian plywood as compared to 3Q 2022⁴ were demonstrated by destinations like Turkey (+2%), China (+34%), South Korea (+22%), Saudi Arabia (+13%) and UAE (+4%), with a surplus of birch plywood supply in the countries of Asia, the Middle East and North Africa due to redirected trade flows. Europe, however, experienced a deficit of supply and price growth due to a ban on plywood import from the Russian Federation.
- 4Q 2022 saw a downward price trend in the markets for sawn softwood in the period of seasonal slowdown of construction activity. The key drivers behind price decline in 4Q 2022 were as follows:
 - High levels of port inventories in China: in mid-November, inventories in the port of Taican (the basic port for sawn timber imports from the Russian Federation) stood at 1.2 mln cu m, up 31% vs the same period of 2021.
 - o In Egypt, after a price fall in October 2022, an upward trend started to emerge in mid-November. Egyptian warehouses were 50% full, with the product specifications being represented by a high share of inferior-quality products. In late November to early December 2022 there were a growing number of customer requests, yet also persisting limitations due to buyers low solvency.
- The Russian segment of wooden house construction in 4Q 2022, against the backdrop of slowdown in construction activity in the winter period, was facing lower demand and, consequently, prices.

Overview of the Group's results

The Group's revenue for 12M 2022 was up 15% yoy and reached RUB 106.8 bn owing to the growth of average prices of the Group's products and an effect from the consolidation of the assets of NLHK and IFR, which commenced in 3Q and 4Q 2021, respectively. The share of export revenue of the Group declined to 72% (down 2 pp yoy).

OIBDA for 12M 2022 stood at RUB 24.7 bn, down 16% yoy. OIBDA margin for 12M 2022 made up 23% (down 9 pp yoy). OIBDA includes positive adjustment for RUB 3.4 bn⁵. The decrease was driven by price inflation for key raw materials, the increased cost of the harvesting and transportation of logs amid a higher share of harvesting at the Group's Siberian assets, as well as a considerable rise in logistics costs and the strengthening of the rouble against foreign currencies.

The net profit of the Group for 12M 2022 amounted to RUB 6.1 bn, a reduction of 60% yoy primarily in the context of operating profit reduction and interest expense growth.
