

C E R T I F I C A T E

QP-22-06-08-01

Pursuant to the supervision agreement no 2122035, order no. 2122035, this certificate is valid for

Birch Plywood FR (Flame retardant) FSF

Plywood, unfaced, phenol-formaldehyde (PF)
in the thickness range of 4 – ≤ 30 mm

manufactured by

Vyatsky Plywood Mill Ltd.

at its manufacturing site
Kommuny Street 1
Kirov, 610013, Russia

as accredited testing laboratory and certification body
Entwicklungs- und Prüflabor Holztechnologie GmbH (EPH)
Zellescher Weg 24; 01217 Dresden; Germany

- (A) verifies that the manufacturer applies a quality control method for the determination of the formaldehyde release acc. to EN ISO 12460-3 complying with the requirements given
- (B) established a correlation between the test results of the manufacturers production control method and the results of the reference method EN 16516 or EN 717-1
- (C) established a quality control limit (QCL) for each product type

As a result of the supervision conducted on 14 April 2022 and on the basis of the supervision report 2122035/2022/I1/E1-2020 of 8 June 2022 it is hereby confirmed, that the above mentioned product fulfils the requirements of formaldehyde emission class **E1 DE 2020** according to **ChemVerbotsV Anlage 1 zu §3** using the reference method **DIN EN 16516 respectively DIN EN 717-1 (results multiplied with factor 2)**.

This certificate was first issued on 8 June 2022 and remains valid as long as the mentioned test procedures and/or requirements of factory production control for the assessment of formaldehyde emission are unchanged and the product and manufacturing conditions in the plant are not changed significantly, unless the certificate was suspended or withdrawn by the product certification body.
